

April 18, 2001

To whom it may concern:

This letter is in acknowledgement of Thorin Teague's contributions to Blue Lobster Multimedia Productions as a New Media Artist.

Thorin was called upon to use his talents and formal training in interactive presentation authoring as well as 3D modeling and animation. His experience with Macromedia Director was utilized as lead programmer of an award winning production for a client entitled, "*Wetgaurd i-Bulletin*". His knack for the creation of original music and sound effects enabled him to add an extra dimension to several of the projects he has worked on here at Blue Lobster.

Based on his talents and accomplishments, Thorin should be considered a valuable addition to any new media production company.

Sincerely,
Scott Sarka

Media Director
